Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5, 6 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 5 recites the limitation "said electrodes" in line 7. There is insufficient antecedent basis for this limitation in the claim. Is this referring to all the electrodes, or only the third and fourth?
4. Claims 13, 14, 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 13 recites the limitation "said electrodes" in lines 7 and 8. There is insufficient antecedent basis for this limitation in the claim. Is this referring to all the electrodes, or only the third and fourth?
6. Claims 25, 26 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
7. Claim 25 recites the limitation "said electrodes" in line 7. There is insufficient antecedent basis for this limitation in the claim. Is this referring to all the electrodes, or only the third and fourth?

Art Unit: 3653

8. Claims 2, 3, 10, 11, 22-24,30 and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims have language "to more effectively . . ." More effectively than what? This renders the claims indefinite.

Allowable Subject Matter

9. Claims 1 – 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

10. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose, or render obvious a spark induction power conditioner including first and second electrodes selectively positionable for altering spatial distance between the electrodes, for inducing a large amplitude, high frequency current ripple, for creating a fluctuating voltage, in combination with the other elements of the independent claims.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
